

CT-Luso Training Program: Applications open

Applications for the Training Program on ethical and legal requirements for the development of scientific and clinical research for the CT-Luso project are now open, with a deadline of November 15.

This **free training**, equivalent to 12 ECTS, will be accredited by NOVA Medical School and the Faculty of Pharmacy of the University of Lisbon. The program offers a qualification opportunity for professionals and students from the project's partner institutions.

The training will take place between December 2024 and May 2025, on Tuesdays and Thursdays, with a total of 111 hours of theoretical and practical classes. [Notice](#) and [Training Program](#)

For applications, those interested should fill in an online form, attaching their personal details, *Curriculum Vitae* and a Letter of Expression of Interest. **Applications** [here](#).

Second CT-Luso Meeting:: review of the work of the Center for Biomedical Law

At the second meeting of the CT Luso project, which took place online on October 2, an assessment was made of the work carried out by the Biomedical Law Center (CDB). Carla Barbosa explained that an updated overview of the legislative and institutional reality of biomedical research and clinical trials in Angola, Cape Verde, Guinea-Bissau, Mozambique and São Tomé and Príncipe is being drawn up. This work is being carried out by the CBD in collaboration with legal experts from the five countries.
