

Applications for the Training Program

Applications for the CT-Luso Project's **Biomedical Research and Clinical Trials Training Program** will be available at the beginning of October at www.ct-luso.com.

This is a credit-bearing course and the call for applications will be published shortly, with the deadline for submitting applications and all the useful information.

First official meeting aligns goals for the future

The first official meeting of the Luso TC, held online on September 13, marked the formal start of the project and the launch of its activities. The meeting was an opportunity to deepen the objectives and align the action plans for the next six months.

The priority goal is to strengthen and harmonize the ethical-legal framework for conducting Clinical Trials, the way the competent institutions work to monitor their life cycle and the training of professionals to manage the process, with a view to international validation.

This [first official meeting](#) followed the [presentation session of](#) the CT Luso project, held on April 4, in a hybrid model, in Mozambique and online.

Coordination of CT-Luso meets with CEIC and Biomedical Law Center

On September 4, the coordinators of **CT-Luso** met by videoconference with the new board of the **Ethics Committee for Clinical Research** (CEIC), one of the project's partners. [Find out more here](#).

On the same day, a virtual meeting was held with the **Biomedical Law Center**, which is leading Work Package 3 (analysis of legislative gaps, recommendations for scientific research policies and implementation of public policies). [Read more here](#).

CT-Luso in the spotlight at FIP Cape Town 2024

Helder Mota Filipe, president of the Portuguese Pharmaceutical Association, presented the CT-Luso project on September 3 at FIP Cape Town 2024 - the 82nd World Congress of Pharmacy and Pharmaceutical Sciences, in Cape Town, South Africa. [Find out more here](#).

From September, the CT Luso newsletter will be published every month with updates on the project. Follow the news.
